QUESTION 1:

Does the 28-0-3 or the 20-5-10 have any slow release in the blend? If so please provide the exact specs for the type and rate of slow release requested.

RESPONSE:

Please see attached fertilizer label that is acceptable by the Government.

20-5-10

20% Slow
Release
Nitrogen - XCU

Guaranteed Analysis:

Total Nitrogen-----	20.00%
Ammoniacal Nitrogen-----	1.90%
Urea Nitrogen*-----	18.10%
Total Available Phosphate(P2O5)-----	5.00%
Soluble Potash-----	10.00%

*Contains 4.00% Slow Release Nitrogen from XCU polymer coated, sulfur coated urea. (20% of total N)

Derived From: Polymer Coated Sulfur Coated Urea, Urea, Diammonium Phosphate, Muriate of Potash.

Use in accordance with recommendations of a qualified individual or institution such as an agronomist, certified crop advisor or extension agent, in agreement with your approved nutrient management plan.
